

## The Education Partnership Map Style and Style Choices

Map Style	Style Descriptions
	<p><b>Style Choices:</b></p> <ul style="list-style-type: none"><li>- <i>Basemap:</i> Troy Blue<ul style="list-style-type: none"><li>- This color was used because it mirrors the strongest color used in TEP's logo. This color is also the most muted on their website, causing the map to pop to viewers</li></ul></li><li>- <i>Local Roads/ Parks:</i> Moon Mist<ul style="list-style-type: none"><li>- This grey-beige blend is used to really make the local roads and park areas stick out from the map. This will allow site visitors to see the exact location of different partner schools with ease</li></ul></li><li>- <i>Highways/ Transit Lines:</i> Fuel Yellow<ul style="list-style-type: none"><li>- This color from the palette was used as it resembles the default highway color for Google Maps. This also is highlighted on the dark blue base map and will allow visitors to see what major roadways are closest to a partner school.</li></ul></li><li>- <i>Points of Interest:</i> Ship Cove<ul style="list-style-type: none"><li>- This color stands out from the dark blue base map but still matches the overall scheme. This could be good for other non-profits or organizations to see what partner schools are in their area.</li></ul></li><li>- <i>Waterways:</i> Light Blue<ul style="list-style-type: none"><li>- This was intended to display the three rivers, but not blend in with the other blue tones that were used.</li></ul></li></ul>
