

## The Education Partnership Map Quote

### Overview:

TEP needs to improve its website to attract potential partners and donors. By adding web maps, donors and schools can easily see which schools are being served in their area and encourage local businesses to partner with schools in their communities. Phillips Consulting has 10 years of experience in web map production and design, providing unmatched quality and products.

### Workflow:

The following deliverables will be done over the course of the project. Each deliverable will be done with TEP's style and website in mind, ensuring that products can be used upon delivery. All deliverables are subject to change at the discretion of the client:

1. Base map creation
2. Look up table
3. JSON File Delivery
